PROGRAM NARRATIVE

PROBLEM STATEMENT: First, define the problem exactly as it exists in your particular community. Describe the nature and magnitude of the problem using valid, updated statistical data; cite the source and date of your information. Sufficient data should be provided to prove the problem is significant and should be addressed. Include a discussion and analysis of trends in traffic-related incidents, their scope and characteristics. Data should be presented covering the past three (3) years. Second, include a discussion of your existing efforts and level of activities (current resources and programs) in dealing with the problem and why new or additional intervention/activity is needed. Attach additional pages as needed.

Please see the attachment entitled, Problem Statement.

PROGRAM NARRATIVE

PROGRAM GOAL(S): Describe the broad, long-term goals of the program and indicate the change(s) or outcome(s) anticipated.

1. To have a 10% reduction in the total number of alcohol and drug related traffic crashes in the City of Anderson and Anderson County by the end of the grant period. For 2007, the figure was 177. The grant-period target is 159.
2. To have a 10% reduction in the total number of alcohol and drug related traffic injuries in the City of Anderson and Anderson County by the end of the grant period. For 2007, the figure was 134. The grant-period target is 121.
3. To have a 10% reduction in the total number of alcohol and drug related traffic fatalities in the City of Anderson and Anderson County by the end of the grant period. For 2007, the figure was 22. The grant-period target is 20.

Data is from the South Carolina Traffic Collision Fact Book 2007, pages 76 and 83. IMPACT INDICATOR(S): State how accomplishments of the program goal(s) listed above will be measured.

1. Statistics of DUI related collisions in the City of Anderson and Anderson County will be maintained on a monthly basis to verify that the DUI related collisions are decreasing from the previous year. The statistical data will also be reviewed and analyzed to determine the locations, time of day and demographics of the persons involved in probable DUI related collisions throughout the grant period in order to determine the locations where the DUI Traffic Unit can make the most impact.
2. The City of Anderson Police Department will maintain a monthly log of injuries resulting from traffic crashes investigated in the city and the county which list alcohol / drugs as a probable related cause and will compare this data each month to the same month during the prior year to track the changes.
3. Statistics of DUI related traffic fatalities in the City of Anderson and Anderson County will be documented and reviewed on a monthly basis. The figures from the same month the previous year will be compared to the current year to verify that the DUI related fatalities are decreasing.
4. Statistics shall be obtained from the South Carolina Department of Public Safety in order to verify that the number of traffic crashes in the City of Anderson and Anderson County are decreasing by the end of the grant period.

PROGRAM NARRATIVE

PROJECT NARRATIVE: Provide a comprehensive step-by-step description of the project, indicating the tasks and activities to be employed to address the problem outlined on Page 7. Detail **what** will be accomplished, **how** activities will be implemented, and **who** will perform the tasks. Each specific objective should be addressed, including an explanation of how it will be achieved. Use additional pages as necessary.

The first step in continuing the Alcohol Countermeasures grant program for a second year will be to continue the DUI Traffic Unit's pursuit of the goals and objectives of the program. A letter certifying the officers continuing the efforts of the grant program will be forwarded to the SCDPS/OHS. The hours (primarily nights and weekends, except for court) that the grant-funded officers will work will be determined by the Project Director in order to provide the most pro-active enforcement of the DUI statutes. Please see the attachment entitled, Sample Monthly Schedule. (Objective 1)

The DUI Traffic Unit Officers will conduct a minimum of one public safety checkpoint per month throughout the grant period. A record will be maintained by the Project Director to include but not limited to the number and type of charges, the date and location. (Objective 2)

The grant-funded officers' duties will include pro-active enforcement of DUI statutes in predetermined areas of the city. Their duties include tracking, analyzing and reporting the conditions that contribute to DUI and Drugged Driving related crashes. Officers will concentrate their efforts on driving behaviors and violations identified by the South Carolina Criminal Justice Academy (and other traffic safety training facilities and contemporary research) that are positively correlated with impaired driving. Examples of predictor behavior for DUI include speeding, improper turning, improper stopping, traffic signal and sign violations, and failure to yield right of way. (Objective 3)

Because speed is considered to be one of many contributing factors in DUI-related crashes, the DUI Traffic Unit will enforce the speed limits within the city of Anderson. Documentation of their contact, the nature of the contact, and the result of their contact with speeders who are apprehended will be maintained in the officers' daily logs and reported on their monthly reports to the media. (Objective 4)

The DUI Traffic Unit will have a "Zero-Tolerance" approach toward traffic violations for failure to yield right-of-way, following too closely, disregarding a signal/sign, improper turn and improper lane change and other violations which are detected as a result of enforcement activities to detect impaired drivers. (Objective 5)

The Project Director will foster relationships with the local media outlets and create a media campaign to disseminate highway safety messages and the activities of the unit monthly during the grant period. The grant-funded officers may also be involved in establishing and/or upgrading these relationships. (Objective 6)

The officers funded through the DUI Traffic Unit will keep individual daily logs that contain reliable and accurate information concerning the identity of persons who have received written citations, verbal warnings, and/or had other official contact with the affected member of the DUI Traffic Unit while the member is patrolling. These logs may be handwritten or electronically maintained, or both. (Objective 7)

The DUI Traffic unit will participate in the Law Enforcement Network and will document all activities and meetings attended. (Objective 8)

The grant-funded officers will fully participate in all activities (enforcement, education and media) of the Sober or Slammer! campaign occurring in FFY 2011. The Project Director will maintain detailed logs of all activities and will submit information to the Office of Highway Safety as needed. (Objective 9)

The DUI Traffic Unit Officers will maintain detailed records of their monthly work schedules. The Project Director will submit the work schedules along with the monthly report form by the 10th of the previous month throughout the grant period. (Objective 10)

The DUI Traffic Unit Officers will attend training approved by the Office of Highway Safety in order to increase their knowledge in SFST and DUI trial preparation. The Project Director will maintain records of the training courses and will submit the required paperwork to the Office of Highway Safety as needed. (Objective 11)

The DUI Traffic Unit Officers will maintain the information required monthly to be reported to the Office of Highway

Safety. The Project Director will submit an original and copy of the monthly report by the 10th of the previous month throughout the grant period. (Objective 12)

The DUI Traffic Unit Officers will conduct at least six educational presentations throughout the grant year to schools, churches, businesses and civic groups on the dangers of DUI and the activities of the DUI Enforcement Team. The Project Director will maintain records of the presentations conducted, the material discussed and the number of persons present. (Objective 13)

The data required by law from non-arrest and non-citation traffic stops will be collected and submitted monthly to the SCDPS by the City of Anderson Police Department. (Objective 14)

PROGRAM NARRATIVE

PROJECT EVALUATION: The purpose of evaluating a project is to assess how well it has been implemented in your jurisdiction and to assess the extent to which the activities funded have achieved the project's goals. In this section, describe the plan or process for assessing the impact on the highway safety problem(s) in your jurisdiction. The completed evaluation report should be included in the Final Narrative Report submitted for the project.

The success of the program will be measured primarily through the use of an administrative evaluation. The evaluation will be based upon measurable activities accomplished and thoroughly compared to the original standards stated in the objectives. The performance indicator data will be used in this comparison. The evaluation contained within the Final Narrative Report will outline the degree of success in which the objectives were fulfilled and the problems encountered. The Final Narrative Report will also address how problems (which may have originally hindered the program) were addressed.

PROJECT CONTINUATION: Explain how the project activity will be continued after federal funding assistance is no longer available.

At the conclusion of the grant period, the City of Anderson Police Department plans to maintain traffic safety enforcement through the municipal budget.

PROGRAM NARRATIVE

MEDIA PLAN: Discuss your plans for announcing the award of this grant to your community through media outlets available to you. Also, please discuss how you plan to keep the public informed of grant activities throughout the entire project period. Use additional pages as needed.

The City of Anderson Police Department presently enjoys an excellent rapport with the local media. If the proposal is accepted and awarded, the Captain of Patrol will hold a press conference with the news reporters from the local radio station(s), newspaper and possibly television reporters. During the conference, the award will be announced and the proposed programs will be outlined. The media and the public will be allowed to ask questions about any concerns that they have and make suggestions.

At least monthly, the Patrol Captain - or his designee - will hold a press conference to announce to the public the team's previous month's performance. The number of tickets issued, arrests for DUI, and other arrests associated with the DUI Traffic Unit will be reported along with other pertinent information. The supervisor will also state that the unit is available to address DUI related concerns - including Alcohol Countermeasures classes to groups who wish to invite the unit to their organization. The DUI Traffic Unit will be available to schools, churches, civic groups, nonprofits and private businesses.

The population of the project area may be larger than the population of the recipient unit of government (e.g., the project is a multi-jurisdictional effort) or smaller (e.g., the project targets a specific segment of the jurisdiction). Cite the source of information presented.

The subgrantee agrees to accept these requirements by the completion of Page 6 of this application. The OHS will only pay the grant portion of compliance audit costs and only if a compliance audit is required. Funding for accounting services is not allowed.
5. **Equal Employment Opportunity:** No person shall on the grounds of race, creed, color or national origin, be excluded from participation in, be refused the benefits of, or be otherwise subjected to discrimination under subgrants awarded pursuant to the Act governing these funds or any project, program, activity or subgrant supported by such requirements of Title VI of the Civil Rights Act of 1964, and all applicable requirements pursuant to the regulations of the Department of Commerce (Title 15, code of Federal Regulations, Part 8, which have been adopted by the Federal Funding Agency); Title IX of the Education Amendments of 1972; the Age Discrimination Act of 1975; Department of Labor Regulation 41 CFR Part 60; and the Department of Justice Non-discrimination Regulations 28 CFR Part 42, Subparts C, D, E and G. The subgrantee must therefore ensure it has a current Equal Employment Opportunity Program (EEO) which meets the requirements of 28 CFR 42.301. The Subgrantee further agrees to post in a conspicuous place, available to all employees and applicants for employment, notices setting forth the provisions of the EEO, as supplemented in Department of Labor Regulations 41 CFR Part 60.

The Subgrantee assures that in the event a federal or state court or federal or state administrative agency makes a finding of discrimination after a due process hearing on the grounds of race, color, religion, national origin or sex against a recipient of funds, the recipient will immediately forward a copy of the findings to the OHS.

10. Written Approval of Changes: Any changes to the subgrant, which are mutually agreed upon, must be approved, in writing, by the Office of Highway Safety (OHS) prior to implementation or obligation and shall be incorporated in written amendments to the grant. 23. Program Income: All program income generated by this grant during the project must be reported to the OHS quarterly (on the quarterly fiscal report) and must be put back into the project or be used to reduce the grantor participation in the program. The use or planned use of all program income must have prior written approval from the OHS.

24. Retention of Records: Records for non-expendable property purchased totally or partially with grantor funds must be retained for three years after its final disposition. All other pertinent grant records including financial records, supporting documents and statistical records shall be retained for a minimum of three years after the final expenditure report. However, if any litigation, claim or audit is started before the expiration of the three-year period, then records must be retained for three years after the litigation, claim or audit is resolved.

25. Property Control: Effective control and accountability must be maintained for all personal property. Subgrantees must adequately safeguard all such property and must assure that it is used solely for authorized purposes. Subgrantees should exercise caution in the use, maintenance, protection and preservation of such property.

Theft, destruction, or loss of property shall be reported to the OHS immediately.

29. **Copyright:** Except as otherwise provided in the terms and conditions of this grant, the subgrantee or a contractor paid through this grant is free to copyright any books, publications or other copyrightable materials developed in the course of or under this grant. However, the federal awarding agency and/or Office of Highway Safety (OHS) reserve a royalty-free, non-exclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for federal government and/or OHS purposes:
- a. the copyright in any work developed under this grant or through a contract under this grant; and,
 - b. any rights of copyright to which a subgrantee or subcontractor purchases ownership with grant support.

Therefore, the federal funds recipient pursuant to the requirements of The Act hereby gives assurance that no otherwise qualified handicapped person shall, solely by reason of handicap, be excluded from the participation in, be denied the benefits of, or be subject to discrimination, including discrimination in employment, in any program or activity that receives or benefits from federal financial assistance. The recipient agrees it will ensure that requirements of The Act shall be included in the agreements with and be binding on all of its subgrantees, contractors, subcontractors, assignees or successors.

34. MBE Obligation: It is the policy of the U.S. Department of Transportation that minority business enterprises as defined in 49 CFR Part 23 shall have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with federal funds under this agreement. Consequently, the MBE requirements of 49 CFR Part 23 apply to this agreement. They may only perform those tasks specified in the approved grant agreement.

47. Signature of this form provides for compliance with certification requirements under the applicable CFR covering New Restrictions on Lobbying, Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants). The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Office of Highway Safety determines to award the covered transaction, grant or cooperative agreement.

BUY AMERICA ACT

The State will comply with the provisions of the Buy America Act (23 USC 101 Note) which contains the following requirements:

Only steel, iron and manufactured products produced in the United States may be purchased with Federal funds unless the Secretary of Transportation determines that such domestic purchases would be inconsistent with the public interest; that such materials are not reasonably available and of a satisfactory quality; or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. Clear justification for the purchase of non-domestic items must be in the form of a waiver request submitted to and approved by the Secretary of Transportation.

1. LOBBYING

Restrictions on Lobbying Congress

The prohibitions against lobbying Congress are contained in Federal statutes:

The Anti-Lobbying Act (a criminal statute), 18 U.S.C. 1913, prohibits the use of appropriated funds directly or indirectly, "to pay for any personal service, advertisement, telegram, telephone, letter, printed or written matter, or other device" intended to influence a member of Congress in acting upon legislation, before or after its introduction. Violators are subject to a fine of not more than \$500, imprisonment of not more than one year, or both, and removal from office.

Annual Appropriations Acts - The DOT Appropriations Act of 1999 (in Section 327) restates the provisions of the Anti-Lobbying Act. The Treasury, Postal Service and General Government Appropriations Act of 1999 restricts the use of appropriated funds for "publicity or propaganda purposes" to support or defeat pending legislation.

The U.S. Department of Justice (DOJ) and the General Accounting Office (GAO) have consistently stated that Section 1913 and restrictions in Appropriations Acts prohibit "grassroots" lobbying. For example, these Acts prohibit the use of Federal funds for:

"grassroots" lobbying campaigns that encourage third parties, members of special interest groups or the general public to contact members of Congress in support of or in opposition to a legislative or appropriations matter.

These prohibitions apply to all DOT funds, including NHTSA funds awarded to States under grants, contracts and cooperative agreements. Accordingly, these prohibitions apply to State officials whose salaries are supported, in whole or in part, with NHTSA funds.

Section 326 of the FY 2000 Appropriations Act

In the FY DOT 2000 Appropriations Act, Congress expanded these anti-lobbying "grassroots" restrictions by applying them at the State, as well as the Federal, level. Section 326 of the Act prohibits the use of DOT funds for any activity intended:

to influence in any manner a Member ... of a State legislature to favor or oppose by vote or otherwise, any legislation or appropriation by ... a State legislature ... after the introduction of any bill or resolution in a State legislature proposing such legislation or appropriation.

GRANT TERMS AND CONDITIONS

NOTE: THE GRANT TERMS AND CONDITIONS MUST BE SUBMITTED WITH GRANT APPLICATION

Accordingly, Section 326 prohibits the use of DOT funds for:

“grass roots” lobbying campaigns that encourage third parties, members of special interest groups, or the general public to urge members of a State legislature to support or oppose a pending legislative or appropriations matter.

This prohibition applies to all DOT funds, including NHTSA funds awarded to States under grants, contracts and cooperative agreements. Accordingly, the prohibition applies to State officials whose salaries are supported, in whole or in part, with NHTSA funds.

Some activities, however, are still permitted:

- A State may use Section 410 funds to develop highway safety materials and make general distributions of the materials, provided the distributions do not target specific pending State legislation and steps are not specifically designed to encourage that the materials be used to influence State legislators on specific pending legislation.
- A recipient of Section 403 funds may conduct workshops on highway safety topics, including those that teach advocacy skills, provided the workshops do not focus on specific pending State legislation and do not take steps specifically designed to encourage the participants to lobby for or against specific pending State legislation.
- A Governor's Representative for Highway Safety, whose salary is supported, in whole or in part, with Section 402 funds may participate in highway safety coalitions, except to the extent that the coalition's activities involve lobbying for specific pending State legislation.

TEA-21 Restrictions on Lobbying State and Local Legislators

The Transportation Equity Act for the 21st Century (TEA-21), which was enacted in 1998, included a new lobbying restriction that prohibits the use of NHTSA funds for:

- Any activity specifically designed to urge a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body.

This restriction imposes additional lobbying restrictions on NHTSA, such as by prohibiting agency officials from:

- Visiting or sending letters to State or local legislators, urging them to favor or oppose specific State or local legislation pending in those jurisdictions; or
- Developing and providing to anyone (including lobbyists) materials developed specifically to advocate for the enactment or repeal of specific pending State or local legislation.

It is the agency's view, however, that these restrictions do not apply to State officials, even if their salaries are supported, in whole or in part, with NHTSA funds. We believe that any direct communications between State executive officials and the laws, regulations and customary practice in the State must govern State or local legislators.

Special Provision in TEA-21 regarding Testimony

Although TEA-21 restricts communications between NHTSA officials and State or local legislators, TEA-21 provides that it "does not prohibit officers or employees of the United States from testifying before any State or local legislative body in response to the invitation of any member of that legislative body or a State executive office."
